HOW AGENTSAFE™
MEETS YOUR NEEDS

The primary purpose of AgentSafe™ is to minimise the cost risk to real estate offices, in relation to the management & handling of health & safety matters on properties. AgentSafe™ makes it easier for agents to comply with Work, Health & Safety – while providing the appropriate resources needed to efficiently, & correctly manage safety & security requirements across the agencies' property portfolio...

- Increases productivity with faster, more accurate + efficient technology leading to higher standards of performance.

- Audit trail functionalities that can protect your business from legal liability.

- Makes compliance easier than ever to achieve + maintain at all times.

- Stay up to date with the latest legal developments - including all relevant issues via a back-end notification email service.

PRODUCT CAPABILITIES INCLUDE:

✓ A compliance checkpoint for every property with a custom alert action feature

✓ A built-in compliance report generator with email capabilities for each property

✓ A list of safety & security matters linked to government websites & fact sheets

✓ Locations for uploading images & documents

✓ An area for storing trades person details & documentation

✓ A location for uploading & storing Condition Reports

✓ A designated area for workplace, health & safety linked to SafeWork NSW

✓ A built-in electronic register of injuries section

✓ A consultation area for recording minutes

✓ A "Safety Induction Verification" form to be signed off & kept by the Licensee in charge

✓ Integration with ADLForms

✓ Email alerts of all legislative changes sent to subscribers

✓ Non-compliant report generator for all properties & trades people

✓ Audit log history

✓ Tutorial support
